

EDUCATION

UNIVERSITY OF MINNESOTA, Twin Cities, MN

Expected Dec 2025

Bachelor of Science, Major in Computer Science

GPA:3.9/4

Languages: Python, Java, SQL, JavaScript, HTML/CSS, C, C++, OCaml

Libraries/Framework: Pandas, Numpy, Tkinter, Django, Bootstrap, PyTorch, JUnit, Spock

Tech Stack: AWS (DynamoDB, EC2, S3), Docker, Swagger, Postman, Studio3T, Jenkins, Gradle, ROS, Version Control

Awards: Cultural Corps Scholar, OPTUM Computer Science Scholar, Dean's List 2022,2023,2024

Certifications: AWS Software Engineering, IBM Full Stack Developer, IBM Software Engineering

WORK EXPERIENCE

META

Menlo Park, CA

Software Engineer Intern

May 2025 - Aug 2025

- Designed and led development of an in-reel product purchasing feature using PHP and Hack, **boosting ad engagement efficiency by 20%** through improved click-through rate (CTR) and interaction depth.
- Optimized the ad pipeline for shoppable videos by **integrating a computer vision model** to refine product bounding box data, improving object detection accuracy and **cutting new advertiser integration time by 25%**.
- Developed a proof-of-concept** internal ad engagement debugging and validation tool, automating root cause detection and **saving 500+ employee hours** per month across engineering and QA teams.

SAS - IDEAS REVENUE SOLUTIONS

Minneapolis, MN

Software Quality Assurance & Technology Intern

May 2024 - Aug 2024

- Enhanced API and unit testing with Postman, Swagger, and Spock to achieve **95% coverage** and **reduce critical bugs by 30%**.
- Led Jenkins-based CI/CD integration, **reducing deployment times by 40%** and ensuring continuous delivery across teams.
- Implemented performance testing for cloud-based applications on AWS EC2 instances using Java and Gradle, leading to a **20% improvement in system responsiveness** under peak load conditions.

SWARM ROBOTICS

Minneapolis, MN

Undergraduate Research Assistant (Amazon Warehouse SWARM Robotics)

June 2023 - Apr 2025

- Reduced pathfinding steps by 25%** through innovative application of Q-learning, SARSA, and A algorithms.
- Pioneered algorithmic comparisons that enhanced robotic efficiency, demonstrating **20% improvement in transactional throughput** by fine-tuning SARSA and Q-learning techniques against traditional pathfinding models.
- Developed custom AI solutions that consistently **achieved near-optimal navigation** paths, evidenced by SARSA algorithm's reliable performance in complex dynamic environments, significantly surpassing baseline metrics.

SAM MONITORING SOLUTIONS

Remote

Software Developer Intern

May 2023 - Aug 2023

- Designed and implemented automated data entry procedures using Python, **reducing manual errors** and **improving accuracy across 50+ shipment records**.
- Collaborated to build a dynamic dashboard with MongoDB Aggregation Framework, enabling **real-time shipment tracking** and **cutting order tracking time by 30%**, **boosting customer satisfaction**.

TEACHING ASSISTANT

Minneapolis, MN

University of Minnesota

Jan 2023 – Present

- Mentored **150+** students in advanced coursework, including **Artificial Intelligence** and **Data Structures**, leading lab sessions on neural network implementation and algorithm optimization.

MANGLA IMPEX

Remote

Software Developer Intern

Jun 2021 – Dec 2021

- Engineered an ML-driven content personalization feature for the website, contributing to a 40% increase in online traffic.
- Developed a Python analytics tool with predictive graphing, cutting monthly data errors by 30% and boosting efficiency 15%.

PROJECTS

CVSMART | AI-Powered Resume Analysis and Matching Engine

- Built an NLP pipeline (spaCy, Transformers) for resume parsing and a fine-tuned sentence-transformer for high-accuracy semantic search.
- Applied K-Means clustering to group candidates by skill profiles, cutting manual screening time by 70%.

GENDER DYNAMICS IN TECH | Predictive Workforce Analysis (AGI Hackathon Winner)

- Developed a predictive model (Scikit-learn) to analyze workforce data, identifying a key attrition pattern: a spike in female departures between ages 24-27.
- Provided data-backed insights for corporate diversity initiatives, leading to a first-place win at the AGI Hackathon.

LEADERSHIP

Marketing Coordinator @ Code The Gap, **International Student Consultant**, **Marketing Communicator** @ International Buddy Program, **Peer Leader** @ Career Star Program, **Office Assistant**, **Resident Assistant** @ Residential Halls
